

EthicsAdvantage™

A combination of the very best technology with an innovative approach to ethics and compliance program management, EthicsAdvantage is a web-based application that improves any organization's ability to proactively manage ethics and compliance matters. More than just case management, EthicsAdvantage facilitates an efficient and thorough collection of information about new or developing issues by establishing standardizing your record keeping practices. EthicsAdvantage can enforce consistent adherence to internal policies and procedures while facilitating a consistent application of discipline through sophisticated controls that it applies to your processes.

FEATURES:

Configurability. Each client runs on its own instance of the software, configured to align with how that company manages its business. The system adapts to you, not the other way around.

Metrics. EthicsAdvantage reports and charts generate the detail you need with a clean, professional, boardroom-ready appearance.

Scalability. EthicsAdvantage adapts to the size of your company and your team.

Security. We host EthicsAdvantage in a secure SAS 70, Type II Certified facility.

Integration. We can integrate EthicsAdvantage with your intake process, including direct, two-way integration with the call center of your choice. Integration with other business functions, such as HR, corporate security and internal audit, is available.

WORKFLOW

Workflow coordinates responsibility among the varied and diverse groups that participate in managing the compliance and ethics function. Workflow lets you assign responsibilities, schedule activities, and apply effective management controls to complex teams. Workflow promises not only to facilitate effective and timely handling of issues but also to reveal trends, and help identify inefficiencies in processing.

COMMUNITY

Whether you need to publish announcements to all users or distribute messages to individuals in specific jobs or in a certain business unit, the Community features within EthicsAdvantage will help. With the optional Document Repository, you can give your EthicsAdvantage Community access to a convenient online area for storing and exchanging documents and other files.

MULTI-FACETED SECURITY

Role-based security provides the ability to retain administrative control of each user's access to data and privileges within the system. Security rights also can be tied to membership within particular organization units or types of issues.

COMPLIANCE AND ETHICS MANAGEMENT SYSTEM

EthicsAdvantage is the core of the EthicsAdvantage Compliance and Ethics Management System, a family of solutions designed specifically to support organizations' efforts to instill and manage integrity among their people.
